*“Working at the intersection of agentic language models,
multi-agent verification, and time-series anomaly detection.”*

EXPERIENCE

AI Engineer · Intelligent Agent Technology Team

Dec 2025 – Present

Suresoft Technologies – Seongnam, Korea

Developing an AI validation platform built on collaborative AI-agent architectures; designing autonomous agents that verify and evaluate AI models; building agentic systems for systematic, scalable, reliable AI verification.

Research Assistant

Aug 2021 – Dec 2025

Bio-Computing & Machine Learning Lab, Kwangwoon University – Seoul

Researched deep-learning algorithms for anomaly detection in time-series data (ECG, cyber-physical systems). Contributed to an Active Kill-Switch and Biomarker-Based Defense System for life-threatening IoT medical devices.

Visiting Researcher

Jan – Jul 2025

LG Electronics Canada, with the University of Toronto – Toronto

Developed an LLM-driven evaluation framework for agentic AI systems.

Summer Researcher

Jul – Aug 2022

Qualcomm Institute, UC San Diego – San Diego, USA

Personality-based drug-addiction prediction system using machine learning.

EDUCATION

Master of Science, Computer Engineering

2024 – 2026

Kwangwoon University, Seoul

GPA 4.33 / 4.50 (98.1%).

Graduate Research Program, Mechanical & Industrial Engineering

Jan – Jul 2025

University of Toronto

GPA 3.68 / 4.00.

Bachelor of Science, Electronics & Communications Engineering

2019 – 2024

Kwangwoon University, Seoul

GPA 3.41 / 4.50 (88.1%).

PUBLICATIONS

Proc. 10th IBEC. – Best Poster Award, Silver.

D. Kwon, Y. Kang, C. Park. “Enhancing medical device security with a GNN-GRU anomaly-detection model.” 2023

Proc. 62nd KOSOMBE Autumn Conf., 204–205. – *Outstanding Paper Award.*

PATENTS

KR 10-2961984 – “Method for Implantable Medical Device to Detect Anomaly in Real Time.” 2026

Issued April 30.

KR 10-2848814 – “GPT API-Based Network Anomaly Detection.” 2025

Issued August 18.

SELECTED AWARDS

2025 **Silver Award**, 23rd Embedded Software Competition (KIISE).

2025 **Outstanding Student Paper Award**, IEIE Conference.

2024 **Best Poster Silver**, 10th International Biomedical Engineering Conference.

2022 **Achievement Award**, Qualcomm Institute AI Project – UC San Diego.

2021 **Gold Award (Ministerial)**, Smart Maritime Logistics – Min. of Oceans & Fisheries.

2021 **Grand Prize**, MY Capstone Design Competition – Kwangwoon University.

LEADERSHIP

- **President**, Kwangwoon International Student Association.
- **Director of Filming and Editing**, Kwangwoon Broadcasting Center (KWBC).
- **Class Representative**, Department of Electronics and Communications Engineering.
- **Executive Member**, Amateur Radio Club.
